Tired of nonstop recruiter outreach?

Jobs Direct is designed to reduce unwanted contact by limiting how your information is used. Your profile is only intended to be viewed by verified hospital-employed recruiters associated with the positions you choose to apply for—helping you avoid third-party spam and unnecessary interruptions. To make your search easier, our AI tool can also suggest job opportunities that align with your location preferences and clinical skills.

Healthcare Professionals
- Skip the unwanted recruiter outreach
- Know exactly which hospitals and organizations you're applying to
- Save time with fewer, more relevant job options to review
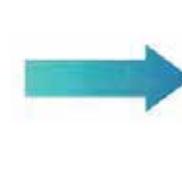

Healthcare Organizations
- Direct communication without third-party recruiters
- Enhanced profiles with detailed clinical background included with candidate CVs
- Candidate data remains private and is not distributed to outside agencies

How it works...

Healthcare Professional
- Set your specialty and location preferences
- Filter and review jobs visually on the map
- Compare role details
- Apply using your CV and a cover letter with the option of AI assistance

Healthcare Organization
- Receive email alerts with complete candidate profiles and application details
- Easily advance applicants to a call or decline with an automated email

Healthcare Professional
- Receive a response indicating interest in scheduling a call or declining to proceed
- Schedule a call at a convenient time
